Lake Desire Speech & Language Therapy

Jodi A. Madden, MA-SLP

Speech Language Pathologist

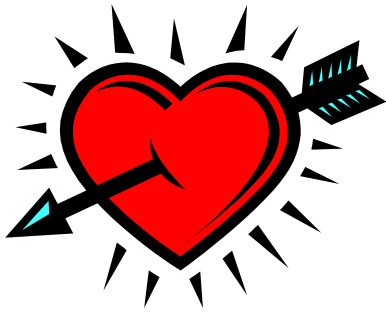

(425) 277-2050

- Would your child benefit from speech/language help but does not qualify for school services?
- Is your child receiving speech therapy in school but would benefit from additional help?

I work with children and adults who have speech and language delays. People with speech delays have difficulty saying certain speech sounds (r, l, s, th) which can make them hard to understand or may distract from what they say. People with language delays may have difficulty clearly expressing ideas or processing information that they hear. These are just a few examples of the areas I treat.

I have been in practice for 9 years. I worked in the Tahoma School District for 4 years and have been in private practice on Lake Desire for 5 years. I work with children ranging in age from 2 years old up through high school. I have a private office in my home on East Lake Desire Drive. Give me a call for a free phone consultation. References available.
